And here's a summary of the preparations so far

We have put in an application into Richmond Council for Monday 4th of June. This was the most popular date; we felt that the River Parade on Sunday 3rd would be a popular event for families and as Tuesday is the last day of the long weekend, people might not want to party too late.

We have applied for road closure for the length of Selwyn and Beaumont, but not Pagoda, which will remain open to traffic and parking. We felt this was a good compromise and that people who needed to move their cars in advance would be able to use Pagoda Avenue for parking.

Thank you very much for your responses to the yellow flyer that was posted through your letterbox. If you know of a neighbour who is interested, but has not yet responded, please ask them to come along or drop me an email, with their views. It is quite important that we can demonstrate to the Council that we have canvassed widely and received feedback from the majority of the residents.
